ITP Sector Projects - update

## 4 Projects developed with the ITP sector

- Benchmarking and success measures
- Developing the network through Collaboration
- Applied Diploma and Degree pathways
- Distance and Flexible learning

All ITP CEOs represented on one or more groups and a steering group of 8 established

## Distance and flexible learning project

- Seen as one of the significant elements of the NOP.
- Project is sector led
- Primary goal is to develop investment strategies to build capability in the sector.
- Findings will be implemented through the investing in a plan process

# Distance and flexible learning project

## Progress to date.

- Established common terminology for the group
- Supported by MOE via aligned research funding, the Tertiary e-learning strategy, the ICT Strategic Framework and TeLRG.
- Discussions ongoing with Ako Aotearoa.

## Distance and flexible learning project

### Project outputs / outcomes.

Develop a vision of the future network of capabilities (adaptable)

Select a capability assessment methodology (to determine what capability we have in the sector now)

Develop investment strategies for the IIAP system (KAREN?)

Work with TeLRG to understand Prof. Dev needs.
